SUMMARY

Product manager with 6 years in freight forwarding operations and logistics software. Moved from running export desks to owning the shipment-visibility product.

EXPERIENCE

Product Manager, SeaBridge Logistics Tech, Mumbai (2022 - Present)

- Negotiated with Maersk Line and Hapag-Lloyd to waive INR 14 lakh of detention charges for a pharma client after documenting repeated free-time breaches; both carriers credited the full amount within 30 days.
- Was the single point of contact for a new FMCG client's onboarding across their procurement, warehousing and finance teams over 9 weeks, until the first 60 containers moved on schedule.
- Wrote the PRD for the exception-alerts module used by 140 shippers; shipped with engineering in two releases.

Operations Lead, Coastline Freight Pvt Ltd, Navi Mumbai (2019 - 2022)

- When JNPT customs placed a 9pm hold on a pharma export consignment, coordinated directly with the CHA and the appraising officer through the night; the hold was cleared by 5am and the shipment made its vessel cut-off before the client knew.
- Through a 4-month peak season with documentation volume up 55%, redesigned shift handovers and the document checklist with no additional headcount; no client shipments missed their cut-off.
