

ARVIND MENON

Senior Product Manager | Bengaluru

arvind.menon@example.com | +91 90000 22002 | linkedin.com/in/arvind-menon-logistics

SUMMARY

Senior product lead with 10 years across freight operations and logistics SaaS. Owns outside relationships end to end and builds processes that outlast the incident.

EXPERIENCE

Senior Product Manager, CargoLens (logistics SaaS), Bengaluru (2020 - Present)

- Set up a quarterly carrier scorecard for the first time at the company after identifying on-time drift; used it to renegotiate rates with 3 shipping lines (average 11% reduction), keeping a INR 2 Cr/year client that had flagged freight costs as a reason to leave.
- Ahead of a DGFT inspection, audited a key exporter client's documentation, found and fixed 6 gaps in advance; the client passed with no observations raised, avoiding penalties and a held licence.
- After a 5-hour tracking-platform outage, wrote the internal incident report and the customer-facing update, ran the retrospective with engineering, and owned all 9 follow-up actions to closure over the next 6 weeks.
- Ran a 12-week rollout for a national retail client as their named contact across logistics, IT and finance; after go-live, monitored the first 30 days and closed every open issue.
- When our AIS data vendor changed its API without notice, switched ETA feeds to a backup provider over a weekend; no client ETAs were missed for 40 shipments in transit.
- During an 18-month volume surge (shipments up 70%), redesigned exception triage with the existing 5-person ops team and no additional headcount; the new triage process was retained permanently and adopted by two other regions.

Product Manager, PortLink Freight, Chennai (2016 - 2020)

- When a Chennai port strike stranded 120 containers, negotiated priority berthing with the terminal operator and rerouted 30 boxes via Krishnapatnam; every client shipment met its delivery window.
- Covered a departing account manager's book of 7 enterprise accounts for 3 months without additional headcount; no churn during that period.

EDUCATION

MBA, IIM Kozhikode, 2016. B.E. Mechanical, Anna University, 2013.
