

Hyderabad, Telangana, India

SUMMARY

Fintech product manager with 6 years building lending and payments products for banks and NBFCs. Strong at regulator and partner work, and at keeping launches safe for customers.

EXPERIENCE

Product Manager, LendStack (lending SaaS), Hyderabad (2021 - Present)

- Secured RBI approval for a co-lending product: prepared the compliance pack and presented it to the regulator's fintech department; approved in 10 weeks, unlocking 2 bank partners.
- Renegotiated API pricing with Razorpay using 12 months of volume data, cutting payment costs by 18%.
- Was the point of contact for a 14-week implementation with a large NBFC client's risk, operations and IT teams until go-live, then monitored the first 30 days of live lending.
- When a credit-bureau partner's API went down for 6 hours at month-end, switched decisioning to cached reports; zero disbursements were delayed for 3 lending clients.
- Automated loan-reconciliation exceptions with the existing 4-person team over two weekends; no new hires, and the process was adopted permanently.

Associate Product Manager, PayGrid, Bengaluru (2019 - 2021)

- Shipped UPI autopay mandates for 40 merchant clients; ran the merchant beta and closed all launch issues.

EDUCATION

B.Tech, Computer Science, IIIT Hyderabad, 2019
